

VENUS V-500 Face-piece Respirators, V-7500 Chemical Filter

TECHNICAL DATA SHEET

Features & Benefits

- In house Batch tested for critical performance requirements.

Half mask Face-piece in soft TPE material (Thermoplastic Electrometric) in Grey colour material.
Produced from non-allergic, Soft & odourless material to ensure high comfort.

- Light in weight .
 - Easy to use & well balanced.
 - Economical.
 - Low maintenance.
-
- Exhalation valve to allow efficient escape of exhaled air containing CO₂
 - Promotes easy communication
 - Sweat port in the face piece for hot and humid environment.
 - Gas Filter and Particle Pre- filter can be combined.

Suggested Industries & Application

Automobile industry, Battery Industry, Bulk Drug & Pharmaceuticals, Chemical Spills, Chemical & Allied Industry, Fertilizers, Heavy Electricals, Industrial Cold Storage, Metal & Metallurgy Industry, Pesticides, Paint/Industrial Painting, Heavy Duty Welding, Plastic/PVC/Rubber industry.

Pull type strong, adjustable elastic gives snug fit yet relieves strap pressure.

- Head support gives even weight distribution & leak-proof fitting.
- Braided elastic , high skin comfort while in use in tough condition.

Reusable storage bag keep respirator clean while not in use.

- User instruction with each respirator.

Suitable for use with V-7500 type replaceable chemical Filter.

Use For :

Use alongwith V-7500 Chemical filter for Organic Vapour, Inorganic Gases, Acid Gases & Ammonia.

Product Information :

- Colour : Grey
- Weight : Facepiece <80 gms. & Filter <140 gms.
- Packaging : Facepiece- 1 pc./pack, 20 packs/carton
- Filter - 4 pcs./pack, 20 packs/carton.

Important information :

- Face-piece is a breathing protection device, operating along with replaceable filter.
- If you can not achieve a proper fit do not use the Respiratory Protective Device.
- Do not use against unknown Gases or in atmosphere where oxygen is below 17%.
- Gas filters shall be replaced when the user begins to sense odour, taste or irritation. Filters used against detrimental gases that do not display any significant indications, require special regulations for the duration of use and correct usage. Particle filters must be replaced at the latest when breathing resistance becomes high.
- Gas filters do not protect against particles, similarly particle filters do not provide protection against . gases or vapours in case of doubt, use combined filter.
