

# VENUS V-800 Face-piece Respirators, V-7800 Chemical Filter

**TECHNICAL DATA SHEET**

## Features & Benefits

- EN 140:1998 Approved for Face-piece.
- EN 14387:2004 Approved for Replaceable chemical filters

Half mask Face-piece in soft TPE material (Thermoplastic Electrometric) in grey colour. It is equipped with dual filter which ensures better breathing comfort.

Produced from non-allergic, Soft & odourless material to ensure high comfort.

- Light in weight .
  - Easy to use & well balanced.
  - Economical.
  - Low maintenance.
- Promotes easy communication.  
- Exhalation valve to allow efficient escape of exhaled air containing CO<sub>2</sub>.

Sweat port in face piece for hot and humid environment.  
Gas Filter and Particle Pre- filter can be combined.

Pull type strong, adjustable elastic gives snug fit yet relieves strap pressure.

- Head support gives even weight distribution & leak-proof fitting.
- Braided elastic, high skin comfort while in use in tough conditions.
- Broad Elastic with front pull adjustable buckles

Reusable storage bag keeps respirator clean while not in use.

- User instruction in English / Hindi language with each respirator.

Suitable for V-7800 type replaceable chemical Filter equipped with Dual filter, ensures better breathing comfort.

### Use For :

Use alongwith V-7800 Chemical filter for Organic Vapour (OV ), Inorganic Gases (B1), Acid Gases(E1), Ammonia (K1) & Combine filter of ABEK1..

### Product Information :

- Colour : Grey
- Weight : Facepiece <80 gms. & Filter <140 gms.
- Packaging : Facepiece- 1 pc./pack, 20 packs/carton
- Filter - 2 pairs/pack, 20 packs/carton.

### Important information :

- Face-piece is a breathing protection device, operating along with replaceable filter.
- If you can not achieve a proper fit do not use the Respiratory Protective Device.
- Do not use against unknown Gases or in atmospheres where Oxygen is below 17%.
- Gas filters shall be replaced when the user begins to sense odour, taste or irritation. Filters used against detrimental gases that do not display any significant indications, require special regulations for the duration of use and correct usage. Particle filters must be replaced at the latest when breathing resistance becomes too high.
- Gas filter do not protect against particles, Similarly, Particle filters do not provide protection against gases or vapours. In case of doubt, use combined filter.

### Suggested Industries & Application

Automotive Industry, Battery Industry  
Pharmaceuticals Industry, Smelter  
Chemical Industry, Heavy Metals  
Petrochemicals, R & D Labs
